## Professional summary

I am a 2nd-year B.Tech student specializing in AI & Data Science with a growing passion for web development. I have hands-on experience building responsive websites using HTML, CSS, and Bootstrap. Alongside my web development work, I am also honing my skills in Python, machine learning, and analytics, aiming to leverage both front-end and data science expertise in real-world projects. When I'm not coding, I actively participate in tech clubs at my college and refine my communication skills through Toastmasters, allowing me to grow as a well-rounded developer

## Education

2023 - Now

### BTech of Stella Mary's College of Engineering

Pursuing B.Tech in AI G Data Science at Stella Mary's College of Engineering. Gaining expertise in data analysis, machine learning, and AI-driven solutions, with a strong focus on real world applications and innovation.

## Courses

2024

### Level1 Presentation Mastery

Toastmasters
