

# Data Analyst

I'm a 2nd-year B.Tech student pursuing a degree in BTECH-AI&DS, passionate about data science and turning numbers into insights. With a growing interest in Python, machine learning, and analytics, I'm eager to dive into real-world projects as a data science or ML intern. When I'm not coding or exploring datasets, I'm honing my skills through tech clubs in my college and Toastmasters club.

2023 - Now

**BTech of Stella Mary's College of Engineering**

## Courses

2024

## Level1 Presentation Mastery

## Toastmasters

2024

## Introduction to python

DataCamp

2024

## Foundational C# with Microsoft

Microsoft

## Internships

## Data Analyst

December 2024 - January 2025

## India

- Python-based data analytics training with CSRBOX and IBM
- Worked with basic python and its packages
- Done a Small project on data analytics with python
